## **B) Soft skill**

The **Business Etiquette Training** conducted by Eazyworld Soft Skill Training as part of its **Corporate Training** focuses on **business etiquette** protocols that are essential to make a good first and lasting impression in the international business environment.

With the expansion of the global marketplace, organizations are increasingly conducting **Cross Cultural Training**. This has brought about a need for the increase in awareness about **professional etiquette** that exists in various cultures, especially **cell phone etiquette**, **business card etiquette** and **email etiquette**. Hence **international business protocol** followed by the dominant cultures is the core part of our **business etiquette training** program.

**Etiquette Training** is one of our most highly sought after programs as the multi-national companies that lack of knowledge of global **professional etiquette** can have disastrous results on customer relationships. Our **etiquette training** is very effective as the trainers have worked in various cultures and have experienced different business cultures themselves.

Our **Business Etiquette Training** program focuses on presenting oneself with finesse and making others comfortable in a business setting. This program also has a component of **Personal Grooming** that is targeted at young professionals who are just entering a business environment.
